DR H S BALLAL, PRO CHANCELLOR, MAHE  
DECLARES THE CONVOCATION OPEN

## WELCOME ADDRESS

### **Dr Dilip G Naik, Pro Vice Chancellor, Mangaluru Campus, MAHE, delivered the welcome address.**

Chief guest of this evening Prof M Jagadesh Kumar, Chairman, University Grants Commission, Mrs Vasanthi R Pai, Trustee, MAHE Trust; Dr H S Ballal, Pro Chancellor, Lt Gen (Dr) M D Venkatesh, Vice Chancellor, Pro Vice Chancellors, Chief Operating Officer, Registrar, Registrar Evaluation, Heads of Constituent institutions of MAHE, Administrators, Faculty members, Members of the press and electronic media, distinguished invitees, parents of degree awardees, graduates and postgraduates, ladies and gentlemen. A very good afternoon to you all.

I extend a warm welcome to each of you and express my heartfelt gratitude for accepting our invitation to celebrate the 32nd Convocation of the Manipal Academy of Higher Education (MAHE).

MAHE stands in glory here today, because of the visionary Dr TMA Pai, who was the founder of the Manipal group of institutions. Dr Ramdas M Pai, our beloved Chancellor, followed his father's footsteps and worked tirelessly, to transform Manipal into an

Institution of Eminence, Deemed to be the University of global repute.

Dr Ranjan R Pai, President of MAHE Trust and Chairman of MEMG is guiding the university with his innovative ideas for transforming our university to one of global standards and introducing the best practices that are internationally acknowledged.

It gives me immense pleasure to welcome the graduates to their momentous convocation ceremony. This day marks a significant milestone in your lives, one that embodies the culmination of your dedication, perseverance, and countless hours of hard work. It is a day to reflect upon your achievements and celebrate the success that you have rightfully earned.

As you step forward from MAHE, I encourage you to carry with you the values that have been instilled in you during your time here. Let this be the beginning of new aspirations, as you embark on building not just successful careers but also meaningful ones,

contributing to your families, society, and the nation at large.

A convocation ceremony is the most important event in the academic calendar of the university. To add lustre to this solemn function we have a persona, who is an academician, researcher, mentor, and administrator of repute. Please join us in extending a warm welcome to Prof M Jagadesh Kumar, Chairman, the University Grants Commission. He obtained his MS, in Electrical Engineering and PhD from the Indian Institute of Technology, Madras, and did his postdoctoral research at the University of Waterloo, Canada. As the Chairman of the UGC, he is spearheading the implementation of NEP 2020 which he calls a vision document.

It is intended to reform education right from the school level to higher education to make the youth globally competitive. He intends to create an ecosystem where the students have more freedom, flexibility, and choice, breaking artificial boundaries and providing holistic multidisciplinary education with Indian Ethos and leveraging digital technology. He is introducing reforms at the university level with a thrust on research and internationalization so that more Indian Universities find a place in the international rankings. Please join me in welcoming Prof Mamidala Jagadesh Kumar. I request Dr H S Ballal, Pro Chancellor, MAHE, to do the honours.

We are delighted to have Mrs Vasanthi R Pai-Trustee MAHE Trust, and the first lady of MAHE. She has been a pillar of support and strength for all our endeavors. A very gracious welcome to you, Madam.

We are happy to have among us today, Dr H S Ballal, Pro Chancellor of our University, and the guiding force behind the growth of this University. To you Sir, I extend a delightful welcome. A gracious welcome to Mrs Indira Ballal.

I am delighted to extend a warm welcome to our esteemed Vice Chancellor, Lt Gen (Dr) M D Venkatesh. His extensive experience and unwavering commitment to the University's growth are truly commendable. Sir, we are honoured to have you here.

I also extend a cordial welcome to Mrs Kusuma Venkatesh!

I am delighted to welcome the Pro Vice chancellors- Dr Narayana Sabhahit and Dr Sharath Rao, Chief Operating Officer, Dr Raviraja N S, Registrar Dr Giridhar Kini, Registrar Evaluation, Dr Vinod Thomas.

I welcome the members of the Board of Management, Academic Council and Finance Committee, who monitor and ensure constant and consistent progress in the activities of MAHE.

The well-knit Manipal team, consisting of Heads of constituent institutions, faculty members, officers of MAHE and the support staff, who have played a dynamic role in carrying forward the vision of MAHE. A hearty welcome to all.

It is a great day for the parents of graduates and postgraduates to see their wards receive their degrees today. I extend a warm welcome to all of you.

The press and media members have been projecting our accomplishments and community services to the public, showcasing the progress of MAHE. Hearty welcome to all of them who have responded to our invitation.

My dear students, as young graduates, it will be your challenge to imbibe the latest developments in the field of healthcare and technology and combine your knowledge with empathy and sympathy towards the less privileged in our society. Life may throw challenges at you but remember that every challenge comes with rainbows and lights to conquer it.

Once again, my heartiest congratulations on your success, and the very best wishes to all of you.

Ladies and gentlemen, once again I extend a gracious welcome to all of you to this occasion.

Thank you. Jai Hind.

## OVERVIEW OF THE MAHE

### **Lt Gen (Dr) M D Venkatesh, Vice Chancellor, MAHE Presented an Overview of the University**

Chief Guest of the 32nd Convocation of Manipal Academy of Higher Education, Prof Mamidala Jagadesh Kumar, Chairman University Grants Commission; Madam Vasanthi R Pai, First lady of MAHE and Trustee, MAHE Trust; Pro-Chancellor Dr H S Ballal; dignitaries on the dais; Pro Vice Chancellors; University Officials; Heads of Constituent Units of MAHE; faculty; Members of MAHE Trust, Board of Management, Academic

Council, Planning and Monitoring Board, Finance Committee; administrators; staff; invitees; parents; and, most importantly, dear graduating students, I am deeply honoured to stand before you today.

It is my privilege to present an overview of the Manipal Academy of Higher Education (MAHE) during this significant occasion.

The visionary behind the inception of Manipal, late Dr TMA Pai, pioneered the concept of public-private partnerships in education in 1953. His belief in education as a transformative force led to the establishment of some of the earliest professional educational institutions, making quality education accessible to all. Dr Pai's contributions have left an indelible mark on the educational landscape.

**Founder and Builder of Manipal**

Padma Shri Awardee  
Dr Tonse Madhav Ananth Pai  
1898-1979

Architect of modern Manipal was a pioneer in starting Public Partnerships in 1953.

Established some of the first professional Education institutions in the non-government, non-missionary, self-financing sector.

**MAHE Leadership**

Datuk Award, Government of Malacca, Malaysia December 2011

Padma Bhushan, Government of India April 2011

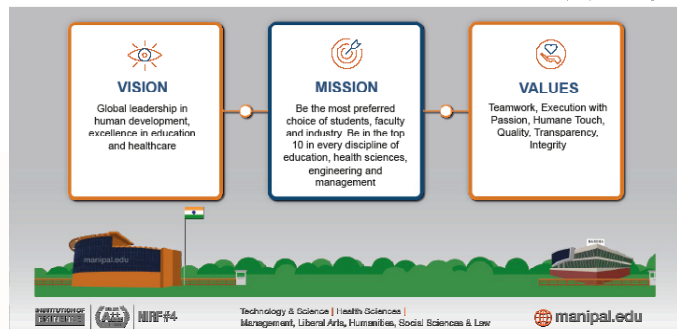

Dr Ramdas M Pai and Mrs Vasanti R Pai Chancellor, MAHE

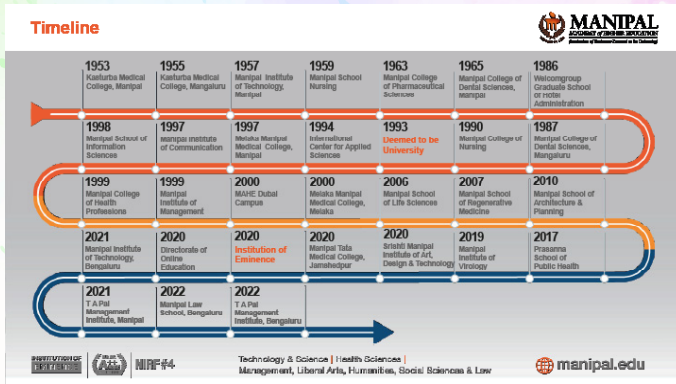

Technology & Science | Health Sciences | Management, Liberal Arts, Humanities, Social Sciences & Law

Dr Ramdas M Pai, son of Dr TMA Pai and the Chancellor of MAHE, has guided MAHE's transformation into an international university town by establishing multiple campuses within India and abroad. His exceptional leadership has garnered prestigious accolades, including the Padma Bhushan from the Government of India and the Datuk Award from the Government of Malaysia.

Our vision is to achieve "Global leadership in human development, excellence in education and healthcare." We aspire to be among the top educational institutions worldwide in the domains of Faculty of Health Sciences, Technology and Science, Humanities, Management, Liberal Arts, and Social Sciences. We are certain that our core values of Teamwork, Execution with Passion, Humane Touch, Quality, Transparency and Integrity will guide us in this direction.

**Vision, Mission and Values**

The journey of MAHE, which began in 1953, rooted in the principles and vision of Dr TMA Pai, is a story of inspiration and transformation. What started with a medical college has evolved into a comprehensive, multidisciplinary university. Over the years, numerous academic units have been added across various disciplines. In 1993, MAHE gained the status of a Deemed University under UGC regulations. In 2020, it was recognized as an Institution of Eminence by

the Government of India, acknowledging its significant contributions to higher education.

MAHE comprises several campuses, including the main campus in Manipal, along with off-campus centers in Mangaluru, Bengaluru, and Jamshedpur, as well as offshore campuses in Dubai and Melaka, Malaysia. The Bengaluru Campus is emerging as a world-class, multidisciplinary center of higher education. The Jamshedpur Campus, featuring a top-tier medical college, exemplifies a successful private-private collaboration with Tata Steel.

3,200+ Faculty Members	State of the art infrastructure & facilities		

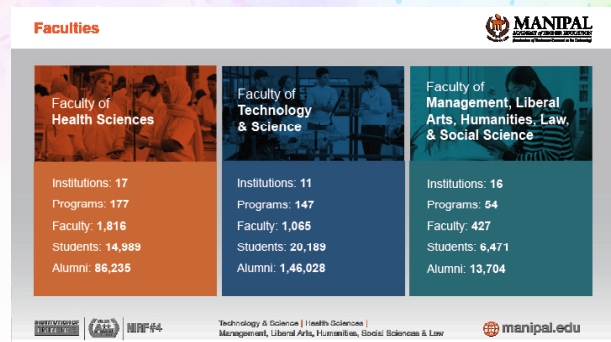

Technology & Science | Health Sciences | Management, Liberal Arts, Humanities, Social Sciences & Law

Over the past seven decades, MAHE has grown into one of India's largest multidisciplinary universities. We offer a diverse range of graduate and postgraduate courses across key disciplines such as Medicine, Engineering, Pharmacy, Dentistry, Nursing, Hotel Administration, Allied Health, Management, Communication, Design, and Liberal Arts. With 26 professional higher education institutions and 18 university teaching departments, we offer more than 370 programs across 36 disciplines. Currently, MAHE

has over 41,600 students and 3,200+ highly qualified faculty members. Our international community includes approximately 3,500 students from 60 countries, with partnerships established with over 250 global institutions. Our alumni network comprises around 2,45,000 individuals spread across the globe.

MAHE is organized into three faculties:

The Faculty of Health Sciences, the Faculty of Technology and Science, and the Faculty of Humanities, Management, Liberal Arts, and Social Sciences. This structure enables us to deliver over 370 multidisciplinary programs across various fields.

As an Institution of Eminence recognized by the Ministry of Higher Education, Government of India, MAHE consistently improves its standing in the National Institutional Ranking Framework (NIRF). In 2024, it ranked as India's 4th Best University, with three of our constituent colleges listed among the top 10 of their respective disciplines. Overall, MAHE ranks 14th in the general category, 23rd for research contributions, and in the 11-50 band for innovation.

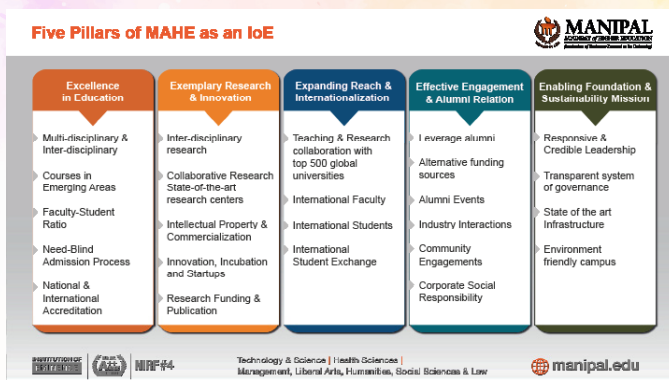

MAHE's steady rise in international rankings has established it as a notable name in higher education. QS ranks MAHE in the 901-950 band for World University Rankings and 197th in the Asian University Rankings. Times Higher Education places MAHE in the 801-1000 band for World University Rankings and 201-250 range for Asian University Rankings for 2024. Additionally, MAHE is listed in the Emerging Economies and Subject Rankings, and Shanghai ranks MAHE in the 901-1000 band for 2024.

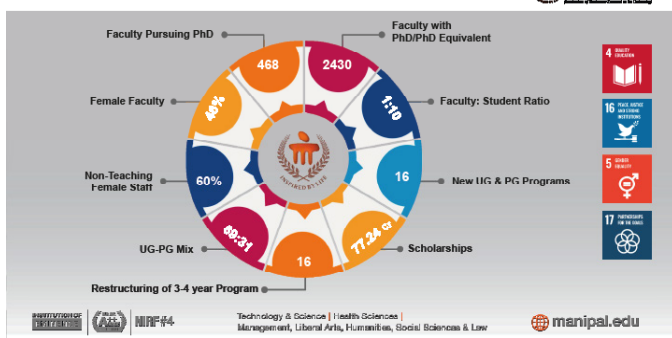

MAHE places utmost importance on quality assurance and is committed to continuous quality enhancement, as reflected in the various accreditations obtained from renowned accrediting bodies. MAHE has been reaccredited by NAAC with the highest grade of A++ and CGPA score of 3.65 out of 4, valid for five years until 30 May 2027. Other accrediting bodies, such as ISO, the National Board of Accreditation (NBA), and the Association for the Accreditation

of Human Research Protection Programs, the Association of MBAs, the Indian Federation of Culinary Associations, and others, have also recognized our commitment to quality education. The latest addition to the list of accreditations is from the Institute of Engineering and Technology (IET).

MAHE has envisaged its progress roadmap as an Institution of Eminence on five pillars: Excellence in Education, Exemplary Research and Innovation, Effective Engagement and Alumni Relations, Expanding Reach and Internationalization, and Enabling foundation and Sustainability Mission. Significant efforts have been made in each of these areas to ensure continuous growth and global recognition.

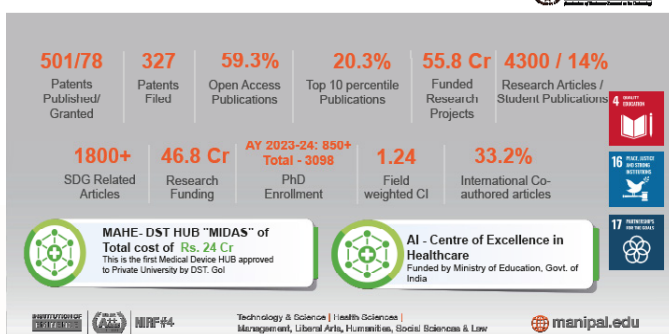

**Excellence in Education**

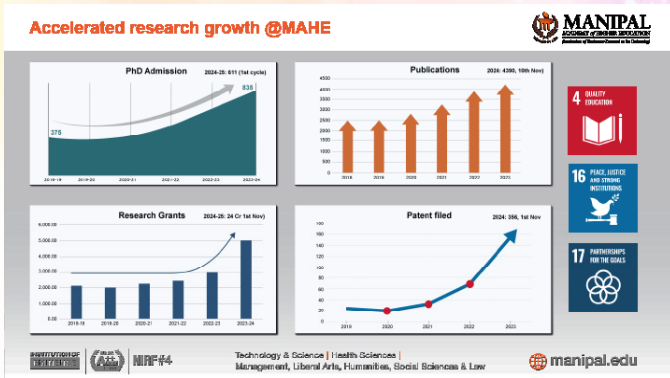

MAHE is committed to enhancing educational quality. Our faculty-student ratio stands at 1:10, with over 2,400 faculty members holding a PhD. 46 percent of our faculty members are female, and 60 percent of our non-teaching staff are female. This year, we introduced 16 new programs and awarded approximately INR 77.24 crore in scholarships to deserving students.

In terms of research, the scholarly output of MAHE has increased multifold. Researchers at MAHE have published articles in high-quality journals, with around 20 per cent of these articles published in top 10 percentile journals, and 59 per cent published in open access journals. The Field Weighted Citation Impact of MAHE is 1.24, 33.2 per cent of the articles published have international co-authors, indicating that more than a quarter of the published articles are an outcome of international collaborative projects. MAHE secured INR 55 crore in extramural funding and allocated INR 46.8 crore internally for research. A total number of 327 patents were filed, and 850+ students have enrolled in PhD programs for the Academic Year (AY) 2023-24. In total, 3098 students are perusing their PhD at MAHE. We are happy to note that MAHE has recently been recognized as an AI - Centre of Excellence in Healthcare, by Ministry of Education, Government of India.

**Exemplary Research and Innovation**

The PhD admissions at MAHE have been steadily increased over the last five years, with approximately 375 admissions during the AY 2018-19. In AY 2023-24, we admitted nearly 850 students and 611 students during the initial cycle of admission for the AY 2024-25. The number of publications has experienced a significant increase in recent years, from approximately 2,500 in 2018 to 4,300 in 2023. With the current number of 4,400 publications, the total may reach over 5000+ by the end of

this year. The extramural grant at MAHE has increased by INR 20 Cr in 2018-19 to over INR 55 Cr in 2023-24. This is a distinct indication that MAHE's research and researchers are recognized by the funding agencies for their research contributions. The number of patents filed has also been increasing at an exponential rate over the past five years. In 2019, there were approximately 20 patents filed; this number is increased to 150 in 2023, and in November 2024, there are already 327 patents filed from MAHE.

As a research-intensive university, MAHE allocates more than 12 per cent of its operational expenditure to research initiatives. We have established over 123,000 sq ft of world-class research facilities, including CIF and BSL-3 labs, with an investment exceeding INR 96 crore for the year 2024.

**MAHE Scientists Ranked in Top 2 Percentile**

36 distinguished scientists from MAHE have made us proud by being featured in the list of the world's top 2 percentile scientists this year.

Expanding Reach and Internationalization continues to be one of the thrust areas of MAHE. The University has established 254 active collaborations with international universities, facilitating semester exchanges and internships to promote student mobility. Partnership agreements with 81 top 500-ranked universities have been signed to further promote internationalization at MAHE. It is heartening to note that MAHE welcomed nearly 3,500 students from diverse nationalities and hosted numerous delegations from global universities on its campus.

**Alumni Relation & Engagement**

- 57 Re-unions / Meet
- 20+ Alumni Initiated Student Eng Programs
- 17 PARTNERSHIPS FOR THE WORLD

Technology & Science | Health Sciences | Management, Liberal Arts, Humanities, Social Sciences & Law

MAHE cherishes the achievements of its alumni, actively nurturing connections within our base of approximately 245,000 individuals. We have organized 57 alumni reunion events, hosted over 500 guest lectures, facilitated 40+ alumni-initiated Academy-Industry Partnership events, and conducted more than 50 sessions for the Alumni Student Connect Series.

We are committed to providing world-class academic infrastructure to our students. This year, we proudly commissioned several new projects of global standards, including the Dr Ramdas M Pai Block, a new building for the Central Instrumentation Facility, a Bio Safety Level 3 Lab, a sustainability building in TAPMI Manipal, and a new Psychiatry Block in KMC Manipal.

Looking ahead, MAHE has planned multiple infrastructure development projects for the year 2024 and 2025, including the “MHRC-Hospice and Respite,” and a new building with modern hostel and student amenities at MTMC Jamshedpur, with an investment of INR 500 crore. This project is set to become a premier health sciences education facility in eastern India.

MAHE is recognized as the Greenest Suburban University Campus in India by UIGM ranking in 2023, affirming our commitment to sustainability. We manage resources holistically, with 71 per cent of campus energy sourced from renewable sources. Additionally, 30 per cent of the campus area is green cover, maintained using treated water. Furthermore, the use of electric vehicles on campus helps to reduce carbon emissions. We are making significant strides toward achieving a carbon-neutral campus.

**Sustainability Mission**

**Greenest suburban University campus in India – UIGM Ranking 2023**

#1 In India | #41 Globally Sub Urban Category | Green Metric World University Rankings

Carbon sequestered on campus is 43,000+ ton CO2

71% of energy used on campus is from a green source

1974 trees saved from being felled by using exam pads

Open areas and rainwater harvesting have greatly supported our efforts, playing a significant role in achieving Water Neutrality

80% of airport trips are done by EV, thus offsetting 65 tons CO2

30% of campus is covered with green cover and maintained using treated water

Incubator area: 30K Sq. ft.

Fund raised By startups: 64 Cr.

MANIPAL-GOV BIINCUBATOR

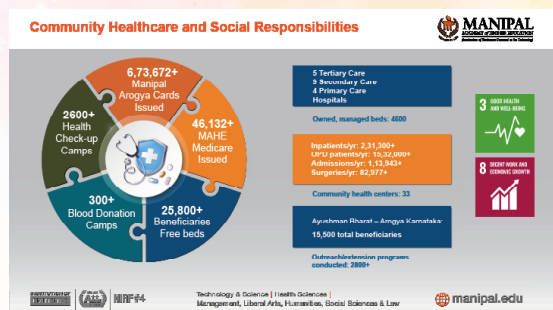

MANIPAL UNIVERSAL TECHNOLOGY BUSINESS INCUBATOR

Technology & Science | Health Sciences | Management, Liberal Arts, Humanities, Social Sciences & Law

manipal.edu

MAHE actively supports technology business incubators like MUTBI and Bioincubator, backed by the Government of India and Government of Karnataka. Our incubators currently host 112 start-ups, 67 of which have received government funding. The total government support amounts to INR 22.43 crore, while the collective revenue generated by these start-ups is approximately INR 64 crore.

MAHE is a leading healthcare service provider through its network of teaching hospitals. In the last financial year, our hospitals treated 19 lakh outpatients and 2.4 lakh inpatients. Our hospitals provide services through various health schemes, both private and government. The Manipal Arogya Card scheme covered over 6,75,000 beneficiaries, offering substantial discounts on all inpatient and outpatient services across our hospitals. Additionally, our teaching hospitals treated more than 18,000 patients under the Ayushman Bharat Scheme. Through the free bed scheme, the hospitals assisted over 25,800 underprivileged patients. Furthermore, more than 300 blood donation drives were organized in the region, and the 2,600+ health checkup camps significantly benefited thousands of patients from rural areas.

**Sports and Culture**

Our campus thrives as a vibrant hub of diverse sports and cultural activities that engage both students and staff, enriching campus life and fostering character-building. These experiences play a key role in shaping our students into well-rounded global citizens

MAHE has been committed to serving the interest of the communities around the University. The Volunteer Services Organization (VSO) was created at MAHE in 2007 to channel this idea in a more organized fashion. It operates as a wholly student-led social unit within MAHE. Operating under the VSO banner, students, faculty, staff, and their spouses enthusiastically embrace volunteerism to contribute to society. Today, VSO has emerged as India's largest student led voluntary organization. MAHE also has National Service Scheme (NSS) units across its campuses, organizing blood donation camps, as well as engaging in the preservation and planting of trees, contributing to a better and greener environment.

**VSO & NSS**

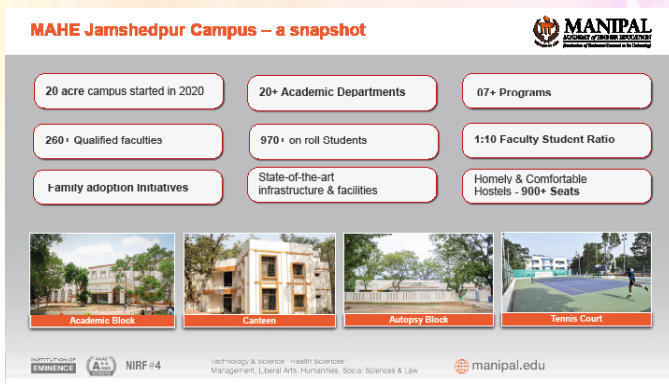

**MAHE Bengaluru Campus – a snapshot**

MAHE Bengaluru Campus is a green sanctuary amidst the urban sprawl. The campus is a harmonious blend of nature and nurture, housing five esteemed professional higher education institutions, three university teaching departments, and a vibrant community of over 7,100 students. With a rich tapestry of over 50 student clubs and communities, 65 innovative programs, and the guidance of more than 400 dedicated faculty mentors, it fosters a dynamic learning environment. Our state-of-the-art infrastructure, including well-stocked libraries and international standard sports facilities, provides the ideal setting for intellectual growth and personal development. Our on-campus hostels can comfortably house up to 3,737 students at present.

The Jamshedpur Campus, housing a top-tier medical college, is an outcome of a pioneering private-private collaboration between MAHE and Tata Steel, offering exceptional infrastructure, clinical resources, and a dedicated faculty. Manipal Tata Medical College provides cutting-edge classrooms and state-of-the-art laboratories, fostering an optimal environment for learning, teaching, and patient care. By embracing innovative teaching methods, the

institute ensures a dynamic educational journey for both students and educators.

Dr Ranjan R Pai, President, MAHE Trust and Chairman, Manipal Education and Medical Group (MEMG), is at the forefront of the Manipal Group’s initiatives in education, healthcare, and research. With a commitment to advancing a legacy of over seven decades, Dr Pai has driven the sustained expansion of MAHE, both nationally and internationally. His visionary leadership is integral to our ongoing journey towards excellence.

## INTRODUCTION OF CHIEF GUEST

### **Introduction of Chief Guest by Dr Manojkumar Nagasampige, Director, Directorate of Online Education**

Good afternoon ladies and gentlemen. It is my privilege to introduce a distinguished academician and an influential leader in higher education—Prof Mamidala Jagadesh Kumar.

Prof Jagadesh Kumar began his academic journey with his MS and PhD in Electrical Engineering from IIT Madras. Following this, he pursued post-doctoral research at the Department of Electrical and Computer Engineering, University of Waterloo in Canada.

His research spans cutting-edge fields such as Nanoelectronic Devices, Nanoscale Device Modelling and Simulation, Innovative Device Design, and Power Semiconductor Devices. With three books, four book chapters, and over 250 publications in leading journals and conferences.

Prof Jagadesh Kumar is an internationally respected scholar. His editorial work is equally impressive; he serves on the boards of various prestigious journals, including the IEEE Journal of the Electron Devices Society, is Editor-in-Chief of IETE Technical Review and was an editor of IEEE Transactions on Electron Devices for nine years. At IIT Delhi, he was honoured as the NXP (Philips) Chair Professor, a testament to his remarkable contributions to semiconductor research.

His numerous awards include the IETE Ram Lal Wadhwa Gold Medal for distinguished contributions to semiconductor device design and modelling, the ISA-VSI TechnoMentor Award from the India Electronics and Semiconductor Association, the IBM Faculty Award in 2008 for

his professional achievements, the Award for Excellence in Teaching (in large class category) by IIT Madras in 2013.

Prof Jagadesh Kumar is a Fellow of several prominent academies like the Indian National Academy of Engineering, the National Academy of Sciences, and the Institution of Electronics and Telecommunication Engineers.

His influence extends beyond academia through numerous leadership roles. He served as the 12th Vice-Chancellor of Jawaharlal Nehru University, New Delhi, from January 2016 to February 2022; he is the President of the General Council of the National Assessment and Accreditation Council (NAAC); member of the University Grants Commission (UGC); member of the Telecom Regulatory Authority of India (TRAI) and Chairman of the Governing Body of the National Council of Science Museums, Ministry of Culture, Government of India.

Currently, Prof Jagadesh Kumar is a Professor in the Department of Electrical Engineering at IIT Delhi and holds the prestigious position of Chairman of the University Grants Commission (UGC), guiding policies for India's higher education institutions. Prof M Jagadesh Kumar has been instrumental in aligning UGC policies with the National Education Policy (NEP) 2020. Under his leadership, significant reforms have been initiated to enhance student-centric education across higher education institutions.

Ladies and gentlemen, it is a pleasure and an honour to have Prof M Jagadesh Kumar with us today. Please join me in extending a warm welcome to this remarkable individual, whose contributions continue to shape the future of education and scientific advancement in our nation.

\* \*

## CONVOCATION ADDRESS BY GUEST OF HONOUR

### **Prof Mamidala Jagadesh Kumar, Chairman University Grants Commission**

During my visit to the university, I witnessed remarkable innovations across departments, from cutting-edge research to entrepreneurial efforts. Institutions like MAHE play a vital role in shaping future leaders who will face significant global challenges, from rapid population growth to environmental sustainability. By 2050, our global population will approach 10 billion, with every individual striving for access to clean energy, safe water, nutritious food, and effective healthcare. These demands will place immense strain on our resources, highlighting the urgent need for innovative solutions.

For instance, India alone has only 4 per cent of the world's freshwater supply, with nearly 80 per cent allocated to agriculture. Addressing food and water security requires reducing our dependency on key crops, encouraging sustainable practices, and finding innovative ways to meet our rising energy needs. I am confident that the qualities I see in our students today—lifelong curiosity,

problem-solving ability, and commitment to ethical leadership—will guide them in tackling these challenges. Together, they will contribute to building a world that is secure, sustainable, and prosperous for all.

“Today, I urge you to embrace the present moment fully, without dwelling on the past or worrying about the uncertainties of the future. Focus on becoming the best version of yourself—a journey that involves continuous self-improvement, physical fitness, and mental resilience. With the excellent training you have received here and a commitment to your responsibilities as citizens, I am confident you will contribute to building a strong, united, and prosperous nation. Congratulations to each of you on this achievement, and may you move forward with purpose and pride. I would like to congratulate all of you for receiving degrees today. Wish you all the best in your future endeavours.”

# PRESENTATION OF MEMENTOS

## FACTS AND FIGURES ABOUT GRADUATES

University facts and figures presented by **Dr Vinod V Thomas,**  
Registrar Evaluation, MAHE, Manipal

### Convocation -November 2024-MAHE- Manipal

Particulars	Day 1 (08-11-2024)	Day 2 (09-11-2024)	Day 3 (10-11-2024)	Convocation Total
Undergraduates	1007	862	1018	2887
Postgraduates	414	615	455	1484
PGDP	0	0	0	0
PhD	38	39	30	107
<b>Total</b>	<b>1459</b>	<b>1516</b>	<b>1503</b>	<b>4478</b>

## VOTE OF THANKS

### **Dr P Giridhar Kini, Registrar, MAHE, Manipal delivered a Vote of Thanks**

Honourable Chief Guest of the day, Dr M Jagadish Kumar, Chairman, University Grants Commission (UGC), New Delhi, distinguished dignitaries on and off the dais, ladies and gentlemen,

It is my honour and privilege to propose the Vote of Thanks on this momentous occasion of the 32nd Convocation of the Manipal Academy of Higher Education (MAHE).

To our Chief Guest, Dr M Jagadish Kumar, Sir, your scholarly address has added immense value to our 32nd Convocation of MAHE. We are all inspired by your simplicity and words of wisdom, thank you sir for your presence today and for awarding the Dr TMA Pai Gold Medal to the best outgoing student and awarding the PhD graduates.

Our Chancellor, our inspiration, Dr Ramdas M Pai, Sir, thank you for being with us in all university activities.

Our pillar of strength, Mrs Vasanti R Pai, Trustee, MAHE Trust; Madam, thank you for your unstinted support in all university activities and for awarding the Dr TMA Pai Gold Medal to the best outgoing student.

Our guiding light, Dr Ranjan R Pai, President MAHE Trust and Chairman, MEMG Bengaluru; sir, thank you for all the directions given towards the success of the university and its constituent units.

Our Pro-Chancellor, Dr H S Ballal; sir, thank you for your untiring efforts in the progress of our university and for awarding the PhD graduates.

Dear graduates, it is your day and we are sure that you have a feeling of fulfilment as you celebrate this significant milestone in your life. Your parents, well-wishers, friends, and faculty have supported you and guided you, to realise this day.

Let us show them how much you appreciate all that they have done for you, please rise and acknowledge them, with a heartfelt round of applause.

Thank you

Dear parents, guardians and well-wishers, thank you for your trust in Brand Manipal,

It is our honour to return your wards to you today, fully confident that they will

- convert challenges into opportunities,
- create a positive impact on our society
- be ambassadors for Manipal and Bharat, and
- most importantly, be inspired by LIFE

Let us all bless them to become leaders in their field of work!

Our leader, Vice Chancellor, Lt Gen Dr M D Venkatesh; sir, you have always stood by us and inspired us to do our best. Thank you for your humane leadership, for presenting the progress of MAHE to this august audience and for awarding the PhD graduates.

We thank our Pro Vice Chancellors

- Dr Dilip Nayak, Mangalru Campus for the welcome address
- Dr Sharath Rao, Health Sciences
- Dr Narayana Sabhahit, Technology and Science
- Dr Madhu Veeraraghavan, Management, Law, Humanities and Social Sciences

We thank our former Vice Chancellor Dr K Ramnarayan and former Pro Vice Chancellor Dr PLNG Rao for their presence.

Special thanks to

- Dr Raviraja N S, Chief Operating Officer, for all background work
- Dr Vinod Thomas, Registrar Evaluation, for Facts and Figures about Convocation 2024

- Dr Geeta Maiya, Director of Student Affairs, for presenting the Gold Medal awardees
- Dr Vasudha Devi, Deputy Director, Centre for Doctoral Studies, for presenting the PhD Scholars
- Dr Manojkumar Nagasampige, Director, Directorate of Online Education, for introducing our Chief Guest

We express our gratitude to all our Regulatory bodies and the members of MAHE Trust, the Board of Management (BOM), the Finance Committee, the Academic Council, the Board of Studies (BOS), the Board of Examiners and all officials from Manipal Group of Institutions, associated hospitals and organizations both from India and abroad, for their support in the university activities and for their presence today.

We wish to place on record our sincere thanks to all our heads of institutions, teaching departments, university functional heads and officials, faculty, non-teaching and supporting staff, for your support and adding immense value to this event.

All the members of press and electronic media richly deserve our thanks for their presence and continued support.

Special thanks to our Master of Ceremony, Suhas Kaushik, Associate Professor, MIT Manipal for the smooth conduct of the event.

We appreciate all the guests who have joined us physically and online. Thank you for giving us your time.

Our heartfelt gratitude to Team MAHE who have worked hard to ensure that this occasion becomes a resounding success and a memorable one for the graduates and their families.

Once again, congratulations to all the graduates who will be conferred with their degrees today. Thank you very much for your presence in large numbers.

GOD bless all of you. Have a memorable evening.

## WELCOME ADDRESS

### **Dr Narayana Sabhahit, Pro Vice Chancellor-Technology and Science delivered the welcome address.**

Chief Guest of the day, Dr Indrajit Bhattacharya, Director General, National Institute of Robotics and Artificial Intelligence, Mrs Vasanthi R Pai, Trustee of the MAHE Trust, Dr Ranjan R Pai, President of MAHE Trust, Pro Chancellor Dr H S Ballal, Vice Chancellor Lt Gen (Dr) M D Venkatesh, esteemed dignitaries on the dais, Heads of Constituent Institutions of MAHE, faculty members, members of the press and media, distinguished invitees, parents, graduates and postgraduates, ladies and gentlemen,

Good afternoon to you all.

It is my immense pleasure to warmly welcome each one of you to the 32nd Convocation of Manipal Academy of Higher Education (MAHE). We are honoured by your presence as we gather to celebrate this significant occasion.

To our graduates, today marks a milestone in your journey—a day that celebrates your hard work and achievements. Earning your degree opens new

doors and opportunities, and I encourage you to set fresh goals for yourself, build meaningful careers, and fulfill the expectations of your family, society, and nation. Congratulations on reaching this proud moment; we extend our heartfelt welcome to each one of you.

MAHE, an Institution of Eminence, stands tall today thanks to the visionary, our founder, the late Dr TMA Pai, Padma Shri awardee. His legacy has been carried forward by our beloved Chancellor, Dr Ramdas M Pai, who transformed Manipal into a global educational hub. Today, Dr Ranjan R Pai, President of the MAHE Trust, leads MAHE toward new heights.

The core values of MAHE—excellence, leadership, professionalism, ethics, and respect for diversity—have made it one of the most sought-after educational institutions in this country.

On this special occasion, we are deeply honoured to welcome our Chief Guest, Dr Indrajit Bhattacharya, Director General at the National Institute of Robotics and Artificial Intelligence, and a distinguished alumnus of Manipal Institute of Technology (MIT). With over 30 years of diverse experience in industry, government, and academia, Dr Bhattacharya has made remarkable contributions to healthcare, IT education, skill development, and industry competitiveness. Sir, it is a privilege to have you with us today. May I request Pro Chancellor Dr H S Ballal to present a bouquet to our esteemed Chief Guest, Dr Indrajit Bhattacharya? A warm welcome also to Madam Sanchita Bhattacharya. I request Dr Jayalakshmi to present her with a bouquet.

We are truly delighted to extend a warm welcome to Mrs Vasanthi R Pai, esteemed trustee of the MAHE Trust and First Lady of MAHE. Madam, your unwavering support and encouragement have been a pillar of strength for all of us. It is an honour to have you with us today—welcome!

We are also joined by Dr Ranjan R Pai, a dynamic entrepreneur and President of MAHE Trust, known for his contributions to healthcare and for upholding Dr TMA Pai's legacy. A warm welcome to you, sir.

I am pleased to welcome Pro Chancellor Dr H S Ballal, whose vision and guidance have been instrumental in our university's growth, as well as Mrs Indira Ballal. We are equally delighted to welcome Vice-Chancellor Lt Gen (Dr) M D Venkatesh, whose leadership drives MAHE's progress.

A warm welcome also to our Pro Vice Chancellors, Dr Dilip G Naik, Dr Sharath Rao and to Registrar Dr Giridhar Kini and Registrar Evaluation Dr Vinod V Thomas.

I extend a warm welcome to members of the Board of Management, Academic Council, and Finance Committee, who work tirelessly to ensure MAHE's sustained progress. To team Manipal—the heads of constituent institutions, faculty members, and staff—thank you for upholding the vision of MAHE.

We deeply appreciate the presence of the press and electronic media, whose consistent support conveys MAHE's progress with integrity and transparency. A warm welcome to you all.

Dear parents,

This is a proud day not only for our graduates but also for their parents, who have supported them through this journey. To all the parents here today, we warmly welcome you to join us in celebrating your children's remarkable achievements.

Dear graduates, completing your degree is a moment of great pride—but it marks just the beginning of your journey. As you step into the world, you will face new challenges, and I encourage you to approach them with compassion and empathy, especially toward those who are disadvantaged. Remember, every challenge is an opportunity to rise, shine, and make a difference.

Once again, I congratulate each one of you, and I extend a warm and gracious welcome to all on this momentous occasion.

Thank you, Jai Hind.

## OVERVIEW

**Lt Gen (Dr) M D Venkatesh, Vice Chancellor, MAHE presented an overview of the University.**

## INTRODUCTION OF THE CHIEF GUEST

### **Introduction of chief guest by Dr Anil Rana, Director, MIT, Manipal**

The man who graduates today and stops learning tomorrow is uneducated the day after.

- Newton D Baker

This powerful quote, shared by the Director General of NIRA on his message board, captures the essence of why continuous learning and constant knowledge updates are so essential, especially in our fast-evolving technical education landscape.

#### **Salutations**

It is my great privilege to introduce our esteemed Chief Guest for today's convocation ceremony, Dr Indrajit

Bhattacharya, an illustrious alumnus of the Manipal Institute of Technology. Dr Bhattacharya brings with him over three decades of experience spanning industry, government, and academia, making him a true leader in his field.

Currently, Dr Bhattacharya is serving as the Director General of the National Institute of Robotics and Artificial Intelligence (NIRA), New Delhi since Jan 2024. He also shares his expertise in the prestigious committee of the Associated Chambers of Commerce and Industry (ASSOCHAM) AI Task Force working for education, awareness, and workforce development

through Public Engagement and Communication. He also serves as a jury of the Largest Innovation Awards in India; The Aegis Graham Bell Awards, the 15th edition of which is scheduled to be held in Delhi in Feb 2025 and supported by three ministries, Ministry of Electronics and Information Technology (MEITY), Department of Science and Technology, and Ministry of Education in partnership with the Government of Australia.

Dr Indrajit has earlier served as the Director at the Centre for Digital Economy Policy Research (C-DEP), as well as the National Accreditation Board for Education and Training (NABET) under the Quality Council of India (QCI), Ministry of Commerce and Industry. His vast expertise encompasses healthcare IT, education, skill development, and industry competitiveness, with key contributions to global organizations like SIEMENS and GE in the medical engineering sector.

Dr Bhattacharya has played an instrumental role in skill development course planning at the MEITY and has contributed to key initiatives at the Ministry of Health through the National Health Portal at the National Institute

of Health and Family Welfare (NIHFW). Furthermore, he has served as a professor at the International Institute of Health Management Research (IIHMR), New Delhi, and was involved with the Ministry of Skill Development and Entrepreneurship, driving initiatives for Industry 4.0 in the MSME sector.

An Electronics and Communications Engineer, with an MBA from IGNOU and a PhD from Birla Institute of Technology, Ranchi, Dr Bhattacharya is also a Fellow of the Institute of Electronics and Telecommunication Engineers (IETE). He has contributed to numerous national and international publications, further solidifying his reputation as a thought leader.

It is a privilege to have such an accomplished and visionary leader with us today, someone whose illustrious career began right here at the Manipal Institute of Technology.

Ladies and gentlemen, please join me in welcoming Dr Indrajit Bhattacharya.

## CONVOCATION ADDRESS BY THE CHIEF GUEST

### **Dr Indrajit Bhattacharya, Director General, National Institute of Robotics and Artificial Intelligence (NIRA), New Delhi**

Distinguished Dr Ramdas M Pai, Chancellor, MAHE; Lt Gen (Dr) M D Venkatesh, Vice Chancellor, MAHE, Dr H S Ballal, Pro VC, MAHE, Commander (Dr) Anil Rana, Director, MAHE, esteemed faculty, honoured guests, proud parents, and most importantly, the graduates of the 32nd Convocation of Manipal Academy of Higher Education, MIT, Manipal; warm greetings to you all! It is with immense pride and gratitude that I stand before you today. As an alumnus of this esteemed institution of the 1985 batch, I am deeply honoured to return as the Chief Guest for this momentous occasion. My journey from the corridors of Manipal Institute of Technology to the National Institute of Robotics and Artificial Intelligence (NIRA), has been profoundly shaped by the quality faculty; and peer experiences I gained here at MIT. From the Udupi Krishna Temple, Malpe Beach, Sunset Point, Kudremukh; AQI, Manipal – the surroundings are indeed marvellous around the year!

Let us take a moment to reflect on change. If we journey back five decades, growing up in my colony in south Delhi had two markets that were operating

in shacks. I wished for them to change in my lifetime, and while it took time, those markets eventually transformed. Today, AI-driven markets like Amazon and Swiggy represent the next level of evolution. Similarly, when I walked the corridors of MIT, they seemed vast; today, they feel comparatively smaller as the institution has expanded tremendously, now recognized as world-class! My father, a mechanical engineer from Jadavpur University, inspired my journey in engineering. Hemanta Mukherjee (singer) - his classmate, dropped in the third year -> Rest is history! Congrats to you for completing a four-year journey and choosing engg.! from Industrial Engg to Electronics in the second year; after graduating, I chose medical engineering with Siemens vs Bharat Electronics (Dr S J Bhat). My wife is a doctor-physician, and our son embodies a creative mindset in Media and Advertising.

My message to you - "Follow your dreams, skills, and passions".

The Evolution of Robotics and AI – The evolution of technology mirrors industrial revolutions: from

steam to electricity, computers to cyber-physical systems (CPS), and now, AI – which can be likened to fire in its transformative potential. By 2030, AI, a game-changer, will create 100 mn jobs, and add \$15tn to the global economy.

AI will not take away your job, but people knowing AI will certainly take away your job, instead, you need to affirm → that AI will make me, my team, insanely productive.

Simply defining AI, as machines and computers, used to simulate or augment human intelligence and problem-solving capabilities. Generative AI (GenAI) presents an unparalleled opportunity with its ability to synthesize vast amounts of data, whether structured or unstructured and in multiple formats beyond simple text. Organizations are increasingly looking for GenAI to uncover insights, boost efficiencies, and unlock value across their organizations. Today, AI can learn and synthesize not just human language but other types of data including images, software code, and molecular structures. According to E&Y, GenAI could boost India's GDP by \$400 bn by 2030, with a cumulative impact of \$1.3 tn. In healthcare, AI-driven diagnostics and robotic surgeries are saving lives. Gen-AI - Virtual Radiologists - Reporting X-rays, CT scans, MRIs → precision diagnosis, tracking disease prognosis, improving patient care outcomes → 91 percent accuracy - USMLE. Indigenous → Brain sight AI – Computational Neuroscience + AI → helping patients with tumour, Dementia, Epilepsy, and Schizo → generating personalized brain maps → allowing informed pre-surgical planning of tumours > enhance precision by 20 percent - Studies are at our Manipal Hospitals itself! In manufacturing, automation is lowering downtime, and enhancing efficiency, productivity, quality, and precision. Ending inhuman practices of manual scavenging-cleaning sewers → a huge benefit to mankind. Advancements are a testament to the power of interdisciplinary collaboration to push the boundaries of innovation. While a professor at IIMR till 2013; Cloud Computing driven by Hypervisor enabled - Software, Infra, and Platform as a Service (SaaS, IaaS, PaaS), now we are into anything as a Service (XaaS) (Function,

Desktop, Storage) → The EVs - BaaS (Battery), now, MLaaS (Machine learning as a Service). As I reflect on my early days when computer engineering at MIT (we were the second batch), I see how far we have come. From learning Basic and Fortran to now navigating Python, R, and machine learning platforms, the landscape is ever evolving. While in Service of Cath labs- SIEMENS – Decipher Complex circuits thick manuals to identify problems in Cath Labs → AI + Extended Reality (XR) assist for lowering downtime, enhance efficiency and productivity. In today's world, data speaks louder than words → Data Lake, Data Mart, Data Mesh, Data Pipeline, Data Warehouse, Data Observability, and most importantly - Data Quality.

EU-GDPR → General Data Protection Regulation (Personal data), PDP Act of India. GenAI's success hinges on a robust data strategy that goes beyond traditional data management. With GenAI's ability to handle both structured and unstructured data, companies must focus on integrating data from various sources—from sales records to social media interactions. The creation of generative AI-ready datasets (GRDs) is crucial, as these train the large language models (LLMs) that form the backbone of GenAI applications. Gen-AI is at the peak of the Gartner Hype curve now; increasing efficiency by 25 percent; and bringing more WLB; however, it has challenges of false output, hallucinations, Bias, and Data Privacy issues. Global Partnership for AI (GPAI) by OECD and initiatives like the India AI Innovation Challenge, encourage the responsible deployment of AI to address pressing societal challenges, from climate change to healthcare. Forty-five partner countries– GPAI 2024 (India Chair next Serbia) thematic priority- Collaborative AI for Global Partnership (CAIGP). EUAI Act - Aug 2024 – Regulation; | NLU, TUM, IEEE - Global AI Dialogues – Impact of GenAI in Education/ Facial Recognition Technologies (FRTs) for public Good. India – AI for Development - Build guard rails (protect from plagiarisms, privacy breaches, misinformation, deepfakes imitating voice, image/ video → has potential for dangerous, abusive, and catastrophic consequences). Ethical AI -- Privacy, Accountability, Safety, Fairness (Bias), Equity, Responsible( PASFER) RBI guidelines → warrants

banks to adopt - adequate risk mitigation practices. Meanwhile, PM has called for Global standards for ethical AI, we must ensure that these technologies are used for the greater good, benefiting all of humanity. Responsible AI → Provenance of data, transparent, explainable and free of bias outcomes Trustworthy AI ->

1. Provenance of Data- Right Data-> Origins-> Evolved-> Identify discrepancies → IP infringement 2. Robust AI systems → protect against vulnerabilities→ abnormalities in inputs → malicious attacks 3. Transparent Explainable AI Models → Check for hallucinations, and deceptive content 4. Fairness and elimination of Bias → Geographic and cultural diversity in data collection [‘Hallucinations’ (‘Stochastic Parrots’ -Metaphor-tokens) - Plausible sounding but factually incorrect response that may mislead users.] Effective prompt engineering, coupled with the latest GenAI enhancement modules, helps ensure the accuracy of AI-driven insights. As GenAI continues to evolve, organizations must move beyond pilots, embrace full-scale industrialization, and drive adoption to capture its true value. From aligning initiatives with strategic objectives to ensuring responsible AI practices, the right approach can unlock a transformative impact across the entire business value chain. ‘Emerging trends include autonomous systems, Human-robot collaboration, Edge AI, Explainable AI (XAI), ethical AI, quantum computing, and bio-inspired robots as we collectively navigate the implications of these technologies. AI accelerators - Neural Processing Units (NPU), 5/6 G network, Blockchain Technology, Quantum Computing | At the National Institute of Robotics and Artificial Intelligence, experimenting with AI and Extended reality (XR)(Web3.0) amongst Robotics, Blockchain, Cyber Security and Smart Manufacturing. On Smart Manufacturing, as per Industry 4.0 benchmarks, Indian SMEs are largely at Industry 2.5. . . . lot needs to be done! While India is aiming for a \$ 5tn economy (currently at \$3.5 tn); China’s economic size is \$17.5 tn, almost five times! As per the International Federation of Robotics (IFR), in 2022, the annual installations of Robots; in China - was 290k, India 5k+ - How will you put it in 2 words → ‘Resource Optimisation’! The Role of AI in Education and Research . . .Interdisciplinary research, benchmarked by Technology Readiness

Levels (TRL), is the cornerstone of innovation. The Global Innovation Index ranks India at 39 out of 133 economies in 2024, reminding us that the future belongs to those who explore the unknown and challenge the status quo.

India (1000 universities | 50 K + colleges) → AI-driven Maturity Assessment Models for Evaluation of HE Institutions – MAMET - Hybrid learning framework conceived at QCI! Meritto → AI led {student enrolment -> placements} | Codetantra -> {LMS} | Muniversity -> {Campus Administration} | Advit -> {Research Automation -> Data preprocess, Data Label, Data Management, Model Training, Model serving | AI-led Cyber security

ANI – Artificial Narrow Intelligence | AGI – General | ASI – Super (Science Fiction)

10 Hypothetical Stages of AI | Stage 1: Rule-Based AI: Functions through a fixed set of guidelines, lacking the ability to learn or apply intuition. Examples include alarm clocks, air conditioners, and business software that automates routine tasks and generates reports. Stage 2: Context-Based AI: Considers environmental factors, user behaviour, historical data, and real-time information to make decisions. Examples include Siri, Google Assistant, and Alexa, which offer personalized recommendations based on past interactions| Stage 3: Narrow-Domain AI: Specializes in analyzing vast amounts of data within specific fields, such as healthcare. IBM’s Watson (NIHFW 2014) is a prime example, providing insights and possible diagnoses for patients, generating financial forecasts, excelling in complex games, and enabling real-time translations. Today, Watson X serves as an AI-driven platform for code modernization, utilized in initiatives like MEITY’s CDAC – AIRAWAT (AI Research Analytics Knowledge Dissemination) for startups. | Stage 4: Reasoning AI: Analyzes data, identifies patterns, and draws conclusions. ChatGPT exemplifies this stage, capable of rapid decision-making and surpassing some human reasoning abilities “Effective Prompt engineering” has evolved for optimal communication with such AI. | Stage 5: Artificial General Intelligence (AGI); Capable of performing any human cognitive task and learning

at an exponentially faster rate. As brain-computer interfaces (BCIs) advance, AGI could enable direct thought communication between humans and AI, integrating seamlessly with physical robots for various applications. | Stage 6: Superintelligent AI: [Predator (1987)] Can evolve and adapt independently, surpassing the cognitive abilities of all humans combined. Predictions suggest that by 2100, AI could be trillions of times smarter than humans, revolutionizing technology at an unprecedented pace. | Stage 7: Self-Aware AI (Sentient AI): Possesses the capability to utilize advanced quantum computing algorithms to model human consciousness and self-awareness. This AI would have a comprehensive emotional and sensory range, potentially exceeding human capabilities. | Stage 8: Transcendent AI: Might create entirely new life forms, whether biological or digital, designed with unique characteristics. It could deploy nanobots to repair ecosystems and foster a collective consciousness among various entities, achieving a shared awareness. | Stage 9: Cosmic AI: Focused on interstellar exploration, Cosmic AI could deploy self-replicating probes across the galaxy, forming an extensive intelligence network. Its mission would include uncovering cosmic mysteries and establishing communication channels between distant civilizations, promoting shared understanding across the universe. | Stage 10: God-Like AI: Represents the ultimate evolution of AI, characterized by omnipresence, omnipotence, and omniscience. It could harness immense computational power to create new universes and realities, allowing both itself and other conscious beings to explore and experience these realms.

Coming back to the present . . . as the technology progresses, the use of unstructured data such as video, audio, images, and more is increasingly important, offering richer insights and more accurate predictions. Organizations need to develop a broader partner ecosystem that includes academia, research institutes, and technology partners. Ensuring interoperability between external partners and existing tools and methodologies will be vital

to maximizing the impact of GenAI initiatives and fostering innovation. Building a skilled workforce is another crucial factor in scaling GenAI. Specialized skills like prompt engineering, GenAI development, and large language model operations (LLMOps) are essential for delivering accurate and usable AI outputs. Prompt engineers ensure that the AI's responses are tailored to specific needs, while LLMOps teams manage the full lifecycle of GenAI applications, from continuous integration to monitoring performance.

As you embark on your professional journeys, I encourage you to use your skills and knowledge for the greater good | " future is not something that happens to us; it is something we create" | Marc Andressen (Stanford U) – " What AI offers to us is an opportunity to profoundly augment Human intelligence" | Hindi Model-NVIDIA | Get acquainted/accustomed atleast 4 - 5 AI tools → 10X productivity -> Vikasit Bharat | Follow 5C practices - Critical thinking, communication, collaboration, creativity, continuous learning | Humans compliment not compete with machines | Humanise results before use | Tectonic shifts towards-> "Digital Shaksham and Surakshit Bharat" -> Cyber Hygiene practice ->"Think before you Click" - prevent 'Digital arrests' | Finally, 'Your education is a piece of paper; your education is seen in your behaviour' → "Engage in Ethical practices" | SECRET for my fellow MITians "Be careful of your thoughts→define > words, action, habits, character, Destiny | Programming of Mind→ Positive Affirmation –

I eject reject expel repel | all negative thoughts and emotions from my mind!

I control my attitude | by controlling the state of my mind | by bringing positive thoughts of happiness, joy, and fulfilment!

Story -> Hermit + Bird | . . .Mighty Mighty MIT ! . . . Jai Hind!

## VOTE OF THANKS

### **Dr Padma Rani, Director MIC, Manipal, MAHE delivered a vote of thanks**

Honourable chief guest of the day, Dr Indrajit Bhattacharya, Director General, NIRA, Dr H S Ballal-Pro chancellor of MAHE, Lt Gen (Dr) M D Venkatesh, Vice Chancellor of MAHE, other distinguished dignitaries, ladies, and gentlemen,

It is my honour and privilege to propose a vote of thanks on this momentous occasion of the 32nd convocation of the Manipal Academy of Higher Education (MAHE).

I would like to take this opportunity to express our sincere gratitude to our chief guest of the day, Dr Indrajit Bhattacharya, Director General, National Institute of Robotics and Artificial Intelligence (NIRA), New Delhi.

Sir, your gracious presence and scholarly convocation address added luster to this important academic function of our university. We are all inspired by your great words. You helped us understand the role of AI in the development of the nation and at the same time, also highlighted the necessity to use ethical AI. Human complement machines- and we are living in an era of fast technological changes but still human intervention is required.

Thank you very much for your encouragement to our graduates.

I acknowledge the presence of Ms Sanchita Bhattacharya.

Let me express my sincere thanks to our respected Chancellor, Dr Ramdas M Pai, for his leadership support and encouragement in all the activities of our university. We also thank Mrs Vasanti R Pai, Trustee MAHE Trust, for her unstinted support in various activities of the University and for awarding the TMA PAI Gold medal to the awardees.

I express my sincere thanks to Dr Ranjan R Pai, President of MAHE Trust and Chairman, MEMG, Bengaluru for his support in organizing this event, thank you, sir.

Permit me to mention our appreciation to Pro Chancellor, Dr H S Ballal for his great efforts towards the growth of this university and conferring the degree to the graduates.

Dear graduates, it is your day and I am sure you have a sense of fulfillment. Your achievements have been recognized, and you celebrate this significant milestone in your lives. I congratulate all the graduates who have been conferred their degrees today and our best wishes to each one of you. Thank you very much for your presence in large numbers. And thanks especially to the proud parents and family members of our graduates who have supported them during their course of study at Manipal.

A special mention to our Vice Chancellor, Lt Gen (Dr) M D Venkatesh. Being the catalyst that inspired us to do our best and stand as a pillar of power. With a deep sense of appreciation, we thank our beloved Vice Chancellor for his untiring efforts to take this university to the next level and present the overview of the University. Thank you, sir.

I extend my heartfelt gratitude to Dr Narayan Sabhahit, Pro Vice Chancellor of Technology and Sciences, MAHE, for delivering the welcome address.

We thank our Pro Vice Chancellors

· Dr Dilip G Nayak, Mangaluru Campus

· Dr Sharath K Rao, Health Sciences

· Dr Madhu Veeraraghavan, Management, Law, Humanities and Social Sciences

Dr Giridhar Kini, Registrar, and Dr Vinod Thomas, Registrar Evaluation

We thank our former Vice Chancellor Dr K Ramnarayan for his presence.

Special thanks to

· Dr Raviraja N S, Chief Operating Officer, for all the background work

And Commander Dr Anil Rana Director-MIT Manipal, for introducing our chief guest of this function.

I wish to express my heartfelt thanks To Dr Madhukar Mallaya, Deputy Registrar-Evaluation for presenting the facts and figures and administering the oath to the graduates.

Dr Geetha Maiyya, Director-Student Affairs for presenting the gold medal awardees and

Dr Vasudha Devi, Deputy Director-centre for Doctoral Studies for presenting the PhD awardees.

We are happy to express our gratitude to all regulatory bodies, members of the Trust, Board of Management, Academic Council, Board of Studies, Board of Examiners, and officials from Manipal Group of Institutions, associated hospitals, and organizations both from India and abroad for their support in the university activities and their presence today.

I also wish to place on record our thanks to all the Heads of Institutions, Deputies, Heads of the Departments, university officials, faculty, and supporting staff, for their support and presence.

All the members of the Press and Electronic media richly deserve our special thanks for their presence at this ceremony. I thank them for their continued support.

Special thanks to our Master of Ceremony, Dr Anand Deep Shukla, Associate Professor, Manipal College of Dental Sciences, Manipal.

We appreciate all our guests, who have joined us physically and online. Thank you for giving us your time.

An event like this cannot happen overnight. The wheels started rolling months ago. It requires planning and a bird's eye for details. We have been fortunate enough to be backed by dedicated colleagues of Team Manipal, who have worked

hard to ensure that this occasion becomes a resounding success. I sincerely thank every one for your efforts.

Finally, I leave you with this inspiring quote for the graduates by the eminent author Roy T Bennett,-

“Success is not how high you have climbed, but how you make a positive difference to the world.”

Once again I thank you all for your attention.

Jai Hind

## WELCOME ADDRESS

### **Dr Sharath K Rao, Pro Vice Chancellor-Health Sciences, Manipal delivered the welcome address.**

Chief Guest of the evening, Dr. Rajiv Bahl; Mrs. Vasanthi R Pai, Trustee -MAHE Trust; Dr. H.S. Ballal, Pro-Chancellor; Lt. Gen (Dr.) M.D. Venkatesh, Vice-Chancellor; Other dignitaries on the dais; Heads of Constituent Institutions of MAHE; Administrators; Faculty Members; Members of the Press and Electronic Media; Distinguished Invitees; Parents and family of Degree Awardees; Graduates, Postgraduates, PhD Scholars, Ladies and Gentlemen: A very good afternoon to you all.

It gives me immense pleasure to extend a warm and heartfelt welcome to each of you. Thank you for honoring our invitation to commemorate the 32nd Convocation of Manipal Academy of Higher Education, a Deemed-to-be-University and an Institution of Eminence.

Dear students, this convocation ceremony marks a significant milestone both for you and our University. It is a celebration of your dedication, perseverance, and the

countless hours you have invested in your education. My sincere congratulations to each of you, and a very warm welcome as we share this proud moment together.

Today, MAHE stands tall, a symbol of academic excellence and innovation, guided by the visionary Dr. TMA Pai, founder of the Manipal Group of Institutions. Our esteemed Chancellor, Dr. Ramdas M. Pai, has carried forward this legacy, transforming a local university into a globally recognized educational hub. Today, Dr. Ranjan R. Pai, President of the MAHE Trust, continues to provide the leadership to take MAHE to even greater heights.

It is a distinct honor to welcome our Chief Guest, Dr. Rajiv Bahl, Secretary to the Government of India, Department of Health, Ministry of Health and Family Welfare, and Director General of the Indian Council of Medical Research (ICMR). We are privileged to have you with us today. Sir, we extend our deepest respect

and a warm welcome, and I now request Dr. H.S. Ballal to officially welcome you with a bouquet as a token of our appreciation.

We are also delighted to have with us Mrs. Vasanthi R Pai, Trustee of MAHE Trust and the First Lady of MAHE, who has been a steadfast pillar of support. A gracious welcome to you, Madam.

Our Pro-Chancellor, Dr. H.S. Ballal, has been a guiding light for the University's growth and progress. Sir, a very warm welcome to you

It gives me great pleasure to welcome our honorable Vice-Chancellor, Lt. Gen (Dr.) M.D. Venkatesh, who continues to lead the University forward with wisdom and dedication. Sir, we extend a cordial welcome to you.

I am honored to welcome our former Vice-Chancellor, Dr. Ramnarayan.

A warm welcome to my esteemed colleagues: Pro Vice-Chancellors Dr. Narayan Sabhahit and Dr. Dilip Nayak, Registrar Dr. Giridhar Kini, Registrar Evaluation Dr. Vinod Thomas and COO Dr. Raviraja NS

I also extend a gracious welcome to the members of the Board of Management, Academic Council, and Finance Committee, planning and Monitoring, Research advisory committee and MUP Board who ensure MAHE's continuous progress.

To the Heads of Constituent Institutions, Faculty Members, Officers, and the entire Manipal team: Your

relentless efforts have helped advance MAHE's vision. A heartfelt welcome to each of you.

Our friends from the press and media play a crucial role in amplifying our message and reflecting our values of transparency, integrity, and advancement. Thank you for being here, and a warm welcome to all of you.

Today is indeed a special day for the parents and family members of our graduates and scholars. We understand how momentous this occasion is for you, and we warmly welcome you to celebrate this achievement.

To our graduates, postgraduates, and PhD scholars, today belongs to you. As you receive your degrees, know that the world is brimming with opportunities and challenges. Embrace new technologies, advancements in health sciences, and the arts and humanities, while always being mindful of empathy and compassion for those less fortunate. Remember, every challenge brings with it a promise of growth and a light to guide you through.

Once again, congratulations on your success, and I extend my very best wishes to you all.

Ladies and gentlemen, thank you for being here in person and online. I extend my sincere appreciation and a warm welcome to everyone as we celebrate this important day together.

Thank you, and Jai Hind!

## OVERVIEW

**Lt Gen (Dr) M D Venkatesh, Vice-Chancellor, MAHE presented an overview of the University**

## INTRODUCTION OF THE CHIEF GUEST

### **Introduction of Chief Guest by Dr Padmaraj Hegde, Dean KMC, Manipal**

Dr Rajiv Bahl is a physician-scientist, with a specialization in paediatrics Bachelor of Medicine and Bachelor of Surgery, Safdarjung Hospital, University of Delhi, 1989.

Doctor of Medicine (MD) in Paediatrics, Lady Hardinge Medical College and Kalawati Saran Children's Hospital, University of Delhi, 1993.

Doctor of Philosophy (PhD), All India Institute of Medical Sciences, New Delhi 1999.

Honourary Doctorate, University of Bergen, Norway (conferred in June 2022) for his contributions to maternal and child health research.

He has 30 years of experience leading health research and translating research to public health policy both in India and at a global level.

He was a scientist in the ICMR Advanced Centre for Diarrhoeal Disease and Nutrition Research at All India Institute of Medical Sciences (AIIMS) from 1994-2002.

He was responsible for Newborn and Child Health Research at WHO (2003-2012).

Dr Bahl has held the position of Head of Research on Maternal, Newborn, Child and Adolescent Health at the World Health Organization (WHO), Geneva (2013-22).

His expertise includes setting the research agenda, conceptualizing and implementing health research to address key priorities, mobilizing resources, supporting and building the capacity of research institutions to implement research studies with excellence, and translating research findings into public health policy and programs. In addition, he has significant experience in research in nutrition, enteric and respiratory diseases and non-communicable diseases.

He has conducted and coordinated population-based and hospital-based intervention trials, cohort and case-control studies, and implementation research to scale-up interventions. The research led by him which has been carried out with world-class quality; has directly impacted policy and programs. It has responded to public health needs and has been published in high-impact journals.

Dr Bahl has supported population-based, multi-country research studies in over 20 countries in Asia and Africa and has contributed to strengthening the research capacity of over 50 institutions.

Major achievements include

- Contributed to major innovations for newborn and child health including zinc in the treatment of diarrhoea, early initiation and exclusive breastfeeding,
- Outpatient treatment of newborns with severe infections when they could not be admitted to a hospital, and immediate initiation of Kangaroo Mother Care after birth in mother-newborn intensive care units.
- Formulation of evidence-based global policy guidelines for the past 20 years in all aspects of maternal, newborn, child and adolescent health.

Strengthened research capacity in more than 50 institutions in 20 countries through hands-on work on important research initiatives, including capacity for proposal development, world-class implementation, data analysis and interpretation of results.

Dr Bahl has demonstrated leadership in health research and translating research to public health policy both in India and at a global level over the past three decades. His prolific scholarly output includes over 250 papers in peer-reviewed journals and an H-Index of 78 that positions him among the top 1.25 percent of scientists in the world across all disciplines.

Ladies and Gentleman, I am presenting to you

Dr Rajiv Bahl

Secretary to Govt of India, Department of Health Research,  
Ministry of Health and Family Welfare and  
Director-General, Indian Council of Medical Research

## CONVOCATION ADDRESS BY THE CHIEF GUEST

**Dr Rajiv Bahl, Secretary to Government of India, Department of Health Research and Director General, Indian Council of Medical Research (ICMR)- Chief Guest**

I would like to congratulate each student present here and their parents for standing with them throughout their journey. I would also like to advise the students here to take care of themselves first. Taking care of yourself is essential because, without self-care, you cannot make the impact you envision or take responsibility in any meaningful way. No matter the goals you are pursuing, the most important investment you can make is in yourself. Success, fulfillment, and peace begin with that commitment.

Consider each of us has an appointment with our potential, our purpose, and our goals. But to truly meet that appointment, we need to nurture ourselves, build our resilience, and stay mindful of our well-being. Imagine 2047 as a peak moment in

your life, where you stand at the summit of all you have set out to achieve. How will you reach there if you do not begin with strong foundations today? Your future itself depends on how you prioritize your mental, emotional, and physical health now.

As you make your way toward the heights of your aspirations, do not just chase titles, achievements, or milestones; be mindful of the journey. Value those who support you, engage in experiences that truly fulfill you, and take the time to appreciate who you are. Reflect on what makes you uniquely capable and beautiful because that confidence will help guide you through life's challenges.

Remember, your time, energy, and well-being are precious assets. Just as you would invest in building

skills or growing your career, take time to invest in yourself. Understand your worth, believe in your values, and make decisions that reflect the kind of person you want to be. At the end of the day, the foundation you lay today will shape the legacy you leave behind.

So, go forward with this in mind: prioritizing yourself is not selfish; it is necessary. Embrace each

opportunity to grow, to learn, and to be present in each moment. The journey to success is not a race but a path you build through balance, self-respect, and dedication. When you nurture yourself, you set the stage to meet each challenge, each opportunity, and each success in a way that is authentic and sustainable.

## PRESENTATION OF MEMENTOS

## FACTS AND FIGURES ABOUT GRADUATES AND ADMINISTERING OATH

**Dr Sreejith G, Deputy Registrar, Evaluation, MAHE presented facts and figures about graduates and administered an oath to the students.**

3	Janet K Joy	KMC, Mangaluru
4	Mrunmayee Rahul Nerlikar	KMC, Manipal

## VOTE OF THANKS

### **Dr Cherian Varghese, Director PSPH, Manipal, delivered a vote of thanks**

Thank you, Dr Ankita Shetty,

Honourable Chief Guest of the day, Dr Rajiv Bahl, Secretary to Government of India, Department of Health Research and Director General, Indian Council of Medical Research (ICMR), distinguished dignitaries on and off the dais, Ladies and Gentlemen,

It is my honour and privilege to propose the vote of thanks on this momentous occasion of the 32nd Convocation of Manipal Academy of Higher Education.

First and foremost, I would like to thank our chief guest, Dr Rajiv Bahl for taking the time out of his busy schedule to be with us today. A little-known secret is that Dr Bahl and I were colleagues at WHO for many years and it makes it extra special for me to thank him. Your insightful speech and expert perspective have certainly left a lasting impact on all of us. We are deeply grateful for your generosity

in sharing your knowledge and experience. Under your leadership, ICMR has become more agile, responsive, inclusive, and impactful. ICMR has also embraced health beyond medical science. I am sure you had a glimpse of MAHE today and we look forward to hosting you again.

Our Chancellor, our inspiration, Dr Ramdas M Pai, Sir, thank you for being with us in all university activities.

Our pillar of strength, Mrs Vasanti R Pai, Trustee, MAHE Trust; Madam, thank you for your unstinted support in all university activities and for awarding the Dr TMA Pai Gold Medal to the best outgoing students.

Our guiding light, Dr Ranjan R Pai, President MAHE Trust and Chairman, MEMG Bengaluru; sir, thank you for all the directions given towards the success of the university and its constituent units.

Our Pro Chancellor, Dr H S Ballal; sir, thank you for your untiring efforts in the progress of our university and for awarding the graduates.

The real chief guests of the day are our graduates. As you step into new chapters of your lives, remember that you carry with you the values, spirit, and legacy of MAHE. Parents and families, your constant encouragement and sacrifices have been the pillars of strength for our students. Thank you!

Our leader, Vice Chancellor, Lt Gen Dr M D Venkatesh; sir, you have always stood by us and inspired us to do our best. Thank you for your humane leadership, for presenting the progress of MAHE to this august audience and for awarding the graduates.

We thank our Pro Vice Chancellors

- Dr Sharath Rao, Health Sciences for the welcome address
- Dr Dilip Nayak, Mangaluru Campus
- Dr Narayana Sabhahit, Technology and Science
- Dr Madhu Veeraraghavan, Management, Law, Humanities and Social Sciences

We thank our former Vice Chancellor Dr K Ramnarayan for his presence.

Our special thanks to

- Dr Giridhar P Kini, Registrar
- Dr Raviraja N S, Chief Operating Officer, for all background work
- Dr Vinod V Thomas, Registrar Evaluation
- Dr Padmaraj Hegde, Dean, Kasturba Medical College, for introducing our Chief Guest
- Dr Sreejith G, Deputy Registrar Evaluation, for giving the Facts and Figures about Convocation 2024

- Dr Geeta Maiya, Director of Student Affairs, for presenting the Gold Medal awardees
- Dr Vasudha Devi, Deputy Director, Centre for Doctoral Studies, for presenting the PhD Scholars

We express our gratitude to all our Regulatory bodies and the members of MAHE Trust, Board of Management, Finance Committee, Academic Council, Board of Studies, Board of Examiners and all officials from Manipal Group of Institutions, Associated Hospitals and Organizations from India and abroad, for their support in the university activities and for their presence today.

We wish to place on record our sincere thanks to all our heads of institutions, teaching departments, university functional heads and officials, faculty, and non-teaching and supporting staff, for your support and adding immense value to this event.

All the members of the press and electronic media richly deserve our thanks for their presence and continued support.

Special thanks to our Master of Ceremony, Dr Ankita Shetty, Assistant Professor, Dept of Commerce, MAHE Manipal for the smooth conduct of the event.

We appreciate all our guests, who have joined us physically and online. Thank you for giving us your time.

Our heartfelt gratitude to Team MAHE who have worked hard to ensure that this occasion becomes a resounding success and a memorable one for the graduates and their families.

Once again, congratulations to all the graduates who will be conferred with their degrees today. Thank you very much for your presence in large numbers.

God bless all of you, have a memorable evening.

Dr H S Ballal, Pro Chancellor, MAHE declared the convocation closed.

## MASTERS OF CEREMONY

Convocation Day 1

Dr Suhas Kawshik C S,  
Assistant Professor, MIT, Manipal

Convocation Day 2

Dr Anand Deep Shukla,  
Assistant Professor, MCOADS, Manipal

Convocation Day 3

Dr Ankitha Shetty,  
Assistant Professor, DOC, MAHE, Manipal

“Educated and enlightened children  
are an asset not only to the family but  
to the whole nation”

Dr TMA Pai

mup@manipal.edu
