Manipal Academy of Higher Education, Manipal

PhD Research Areas available for candidates already having a fellowship

Kasturba Medical College, Mangalore

- Alcohol & Substance abuse
- Alcohol Addiction
- Animal Research
- Anthrapometry Medical Education
- Anthropometry
- Antibiotic resistance
- Antibiotic resistance in pathogenic bacteria
- Antimicrobial Resistance
- Antioxidants
- Asthma
- Asymptomatic Gametocyte carrier state in malaria
- Autonomic function
- Bacterial drug resistance
- Bacterial virulence
- Bacteriological study of water
- Bacteriology
- Bacteriology & drug resistance
- Bacteriophage
- Behavioral Neurophysiology
- Biofilms
- Cancer
- Candida
- Chemotherapy
- Chronic Low back Pain
- Clinical Anatomy
- Cognitive studies
- Community-associated MRSA
- Cyber Crimes/Criminology
- Dementia
- Depression
- Diabetes
- Diabetes mellitus & its complication
- Drug resistance in malaria
- Food additives
- Food microbiology
- Forensic Anthropology
- Forensic Pathology
- Forensic Psychiatry
- Fracture healing
- Free radicals
- Genetics of Asthma
- Gross Anatomy
- Haematology
- Hand & Shoulder Rehabilitation
- Health systems research
- Healthcare-associated MRSA

- Heart rate variability
- Histomorphology
- HIV
- HIV and opportunistic infection
- Hospital acquired infections
- Hospital infection
- Hospital Infection Control
- Infectious Diseases
- Insulin resistance
- Learning and memory
- Maternal and child health
- Medical Education
- Medical Law and ethics
- Medical Radiation Physics
- Methicillin resistant S. aureus
- Molecular biology
- Molecular detection of diarrheagenic Escherichia coli
- MRSA
- Mucositis & Signal pathways
- Mycobacterium tuberculosis
- Natural herbs as radiomodulators
- Neurophysiology
- Neuroscience
- Neurotransmitters
- Non communicable disease
- Obesity & Thyroid disorders
- Obstructive airway disease
- Opportunistic parasitic and fungal infections
- Otology
- Oxidative stress
- Paediatric osteoarticular infections
- Plant extract
- Postural control training on fear of falling
- Preclinical research involving drug dependence
- Predicting malarial complications
- Radiation
- Radioprotectors
- Radiotherapy
- RCH
- Renal involvement in diabetes
- Renal reperfusion
- Salmonella
- Stress
- Thyroid disorders
- Toxicology
- Tuberculosis
