

Program Outcomes: B.Des. (Interior Design)

PO1: Interior Design Knowledge – Apply the knowledge of space planning, material technology, building services and user psychology to design projects holistically.

PO2: Problem Analysis – Identify issues / challenges within interior environment, analyse, synthesize, and apply findings to design solutions.

PO3: Design and Development of strategies – Design solutions that meet the specified user needs with appropriate consideration for user well-being and experience.

PO4: Conduct investigations of complex issues – Use research-based knowledge and methods to analyse, synthesize and interpret data to generate appropriate design solutions.

PO5: Modern tool usage – Identify, select and apply appropriate tools and technology for designing the interior environment.

PO6: Interior Designer and Society – Develop a deep understanding of the intricate relationship between design and society, examining the impact of design choices on cultural and social dimensions, to create responsible and meaningful designs

PO7: Environment Sustainability – Being sensitive to environment, provide solutions by applying sustainable design strategies.

PO8: Ethics – Apply ethical principles and commit to

professional ethics and consideration for design profession.

PO9: Individual and teamwork – Function effectively as an individual and as a member or leader in diverse teams and in multi-disciplinary settings.

PO10: Communication– Ability to communicate through technical sheets, reports, portfolios, and presentations.

PO11: Project management and Finance – Create a productive working environment focusing on time constraints, costing, and optimizing resources for outcome.

PO12: Life-Long learning – Cultivate a capacity for self-directed and lifelong learning, acknowledging the imperative of adapting to evolving needs and technological progress.
