## GINA Parti

Batch: 2008-12

### DESTINATION OF STUDY

USA 

### UNIVERSITY

Milwaukee School  
of Engineering

### CURRENT EMPLOYER

Volvo Construction  
Equipment

I have always had a dream of going out of India, being independent and seeing the world. ICAS helped me create a strong foundation academically and made my dream come true! The curriculum has been structured systematically, aptly matching the curriculum in colleges abroad.

I have been in the US for 3 years now. I am working as a Design Engineer in Volvo Construction Equipment, working with people from 18 different countries and 5 continents. I will always be thankful to the ICAS faculty for making me the person I am today. A note to the new students in ICAS - Study well and regularly, participate in extra curricular activities, it makes you a stronger person and prepares you for the life ahead. Enjoy yourself but work hard, it DOES pay off in the end! Good luck to everyone.

## HIMANI Lohani

Batch: 2010-14

### DESTINATION OF STUDY

USA 

### UNIVERSITY

Embry Riddle  
Aeronautical University

### CURRENT EMPLOYER

Student

In my view, ICAS is a wonderful platform for young aspirants. It provided me with the necessary and sufficient training which made me more prepared for university and my future career. Studying in a foreign university is a challenge in itself, but with the guidance of my teachers in ICAS I have well settled in an international environment.

## SANCHIT Nagpal

Batch: 2010-14

### UNIVERSITY

ICFAI Business School

### CURRENT EMPLOYER

Aavaaz.com

I have always dreamed of studying abroad, and ICAS was the path that led me to it. At ICAS a student learns that, studying is no mere play and he/she must work hard to achieve their goal university. The courses are designed in such a way that, it opens up opportunities for students to transfer to almost all universities abroad.

## HARSHDEEP Singh

Batch: 2010-14

### DESTINATION OF STUDY

USA

### UNIVERSITY

Drexel University

### CURRENT EMPLOYER

The Estee Lauder Companies Inc.

Studying in ICAS was a great experience for me. Without the support of all the ICAS staff it was impossible for me to follow my future dreams. As for the current and prospective student, I would like to say that believe in you and your professors. Never Give Up :)

## ADITI Jain

Batch: 2010-14

### DESTINATION OF STUDY

USA

### UNIVERSITY

University of Minnesota

### CURRENT EMPLOYER

Electric Power System

ICAS has helped me to apply to various universities abroad which is highly ranked in the field of Electrical Engineering. I have chosen University of Minnesota keeping in mind the credits transferred, tuition fees and its ranking which is by far reasonable compared to other universities. Also, with my technical knowledge, I am selected to work as a co-op student for two semesters which adds to my experience and its paid. University of Minnesota course structure is almost same as ICAS.

### UNIVERSITY

ICAS,  
Manipal

### CURRENT EMPLOYER

NMIT, Bangalore

ICAS was a great place to learn many things, I was ushered with excellent academic and personal guidance from a very sublime class of professors, and a special mention must be made about Dr. GMJ Bhat who shaped my career and gave me right guidance at the right time. Overall ICASians are proud and feel highly honoured to get such World-Class Education from ICAS, Manipal. Thank you.

## PRATIK Mukherjee

Batch: 2010-14

### DESTINATION OF STUDY

USA 

### UNIVERSITY

University of  
Minnesota, Twin-Cities 

### CURRENT EMPLOYER

Undergraduate

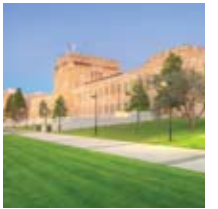

I always wanted to go abroad to study, but I wanted an option which would be feasible. ICAS's twinning program is one such program. I transferred to the University of Minnesota as a mechanical major. The course in ICAS is very compatible with the course here. Hence, most of my credits got transferred without any problem. I believe that wherever you are, what matters most is hard work, and I think my hard work paid off. I would encourage students willing to give in some effort to join ICAS and explore its various options. I convey my best wishes to everyone.

## RAHUL Kumar Singh

Batch: 2010-14

### DESTINATION OF STUDY

USA 

### UNIVERSITY

University of Minnesota,  
Twin Cities 

### CURRENT EMPLOYER

Weissman Art Museum,  
University of Minnesota

I had a dream from my childhood to study abroad. In fact initially, I had no idea about any US universities and how to get into that! Well frankly speaking ICAS helped me a lot not only in applying to the universities outside the country but also provided a tremendous support throughout my college year with superb consultant Mr. Laxmi Narayan. The ICAS course structure and assessment were very common as of other International University which helped a lot in transferring my subject. If I am asked to define ICAS in one sentence I would say "A LAUNCH PAD TO YOUR DREAMS."

## SIDDHARTH Verma

### UNIVERSITY

The Ohio  
State University 

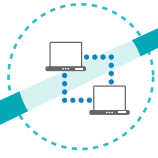

### CURRENT EMPLOYER

Intern at TEOCO

ICAS is a perfect combination of both the college experience and college opportunities. Through ICAS, I was able to explore myself and stretch my boundaries. It provided me with the freedom to experiment and also showed me the path to success. Through ICAS one can aim for any university in the world, while still having 2 years in India to prepare for it. I personally cherish the time I spent there and would recommend ICAS for any hard working youngster who dreams big.

**KISHAN**

Batch: 2008-12

**DESTINATION OF STUDY**

USA

**UNIVERSITY**

- > Milwaukee School of Engineering
- > Michigan Technological University

**CURRENT EMPLOYER**

The Raymond Corporation

The ICAS program is a fantastic journey that not only gives you the academic skills required but prepares you for the real world. Its more than just a way to get a fancy degree, it is about developing a whole new outlook at life! If there is one thing I wish to tell prospective young engineers, it is that you need to think about coursework as more than just scores and grades. You need to understand what the equations you learn mean and what they represent physically. Contrary to popular belief, a good engineer is not one who can solve the most complex of equations but one who can express that equation in words to prove that he/she really understands what it represents. That is what employers really want today. We also know that academics isn't everything. Its about learning something new, working hard at it and having fun at the same time. At ICAS, we work hard and we party harder!

**SPARSH Agarwal**

Batch: 2010-14

ICAS was one of my best decisions in life. Its not a place for people who want to enjoy college life as imagined; its a place for people who have dreams to achieve something big, something that is not accessible to everyone. Joining ICAS brought me a step closer to achieving my dreams and coming to CASE WESTERN RESERVE UNIVERSITY was the next step and now my dream is not that far from me. I would recommend anyone and everyone who has a dream to reach unknown heights and most importantly have the courage to dream BIG...

### CURRENT EMPLOYER

EMD Serono-Merck KGaA

Joining ICAS was one of the best decisions I've made in my life so far. Its an excellent way to get an engineering degree abroad without having to pay for the entire four years of college. ICAS made my dream of studying abroad come true by offering a two year program at Manipal which not only helped me finish the basic engineering courses for far less tuition compared to a university abroad but also offered extensive help in the admissions process. My friends at ICAS are my friends for life! ICAS alumni is also an incredible source of information to guide you while you're at Manipal and even abroad. My Mantra: Never settle for what is; always aim for what can be. Stay persistent but always be ready to change and adapt.
