Campus of
Experiential Learning

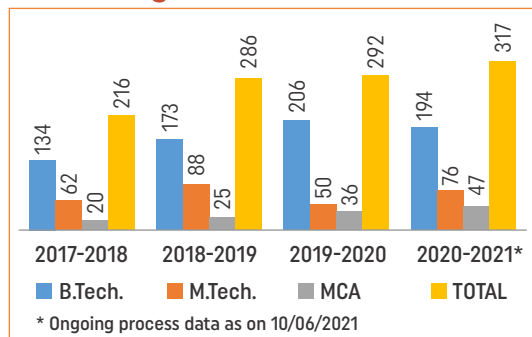

Office of Industry Liaison, Placement & Practice School (IL,P&PS)

Manipal Institute of Technology (MIT) Manipal has always been very proactive in placing the students into their preference profiles. The institute has a well-organised placement team headed by the associate director, three assistant directors, and faculty and student coordinators from each department. 300+ recruiting teams, including 50+ Fortune 500 companies, visit MIT Manipal for UG and PG campus placements and internships recruitment every year.

Diversified Career Profiles

- Manufacturing Operations Engineer, Project Engineer, Business Development Engineer, Web Development
- Member Technical Staff
- C++/VC++, linux
- Management Trainee
- Associate Software Engineer / Full Stack Engineer
- Software Developer
- Graduate Engineer Trainees
- Software Engineer, QA Engineer
- Area Manager, Operations Manager, Program Manager, Business Analyst
- Software Development Engineer
- Software Development, Support, Testing
- Data Scientist / Software Developer
- Trainee Analyst
- Analyst Trainee
- Engineering Graduate
- Java, Spring Boot, Mongo DB, Node Js, JavaScript, CSS3, BootStrap, React/ Angular, React Native
- Business Development Associate
- Business Analyst
- Associate Editor
- Analyst / Senior Analyst
- AI / ML / Data Science / Front End / Back End development in open source tech preferably MEAN stack.
- Software Engineer, Business Analyst, Network Engineer
- Business Development
- Site Reliability Engineer
- Research Intern
- Analyst, Business Intelligence
- GDAS, PSLM, Consulting, Risk & Financial Advisory
- Data Science Interns
- Associate Professional/ Service Delivery Consultant
- CAE Project Engineer
- Non Data Science / Data Science
- Graduate Engineer Trainees - R&D Profile

- Graduate Engineer Trainees
- Associate Software Developer or Associate Quality Engineer
- Data Engineer Trainee
- Imgineer (Campus Program)
- Graphic Design Intern
- Developer, Software Engineer
- Operations Analyst
- Services Role
- Full Stack Development
- Statistical Programming Intern
- Software Development
- Intern Engineer/ Mobile App Development/Web Development
- R&D Engineer
- Associate Developer
- Engineering, Quality Assurance
- Developer - Cloud Technologies/Machine Learning
- Data Scientist
- Software Development, Automation Testing, Devops Support- Java/J2ee, Devops, Cloud, Bigdata, Technical Support
- Engineering Trainee
- Software Developer, Analyst
- Software Developer, Software Test Engineer
- Programming & Testing
- GRC / RC ITA
- Electrical Engineering Graduates
- Product Support, Operations, Product Management and Analytics
- Operations, Product Management and Analytics
- Intern
- Junior Data Engineer
- Graduate Engineer Trainees - IT Department
- Developer
- Software Developer, Business Development
- Analyst, Tech
- Trainee Decision Scientist
- Operations Executive
- Business Development Manager
- Software Development, Technical Sales & Support
- java / Python / Go, DA & Algo, Cloud environment
- Associate - NBS-IT
- Mobile Developer, Front End Developer, SDET
- Systems Reliability Engineer
- Design Develop / Software Developer
- Supply Chain, Manufacturing & Procurement
- Business Development, Sales, Marketing, Consumer Awareness
- Project Trainee
- Dev OPS Engineer
- Associate Software Development Engineer
- Specialists, Associates and Interns
- Business Analyst, Data Engineer, Machine Learning Engineer, Software Developer, Platform Engineer
- Trainee Engineer
- Associate Software Developer / Business Analyst / QA Engineer / Product Specialist / Product Analyst
- Research & Development Team
- Senior Engineer - Software
- Software Engineer Trainee, Cloud Consultant Trainee, Cloud Engineer Trainee, Cloud Solutions Engineer-Trainee
- Software Development, Product Support & Product Implementation
- Computer Vision Engineer, Market Research Analyst
- Business Associate, Technology Associate
- Full Stack, ML/NLP, Vision
- Production Department
- Analyst, Developer
- Manufacturing/Plant Operations/ Sales
- Lead Engineer Trainee
- Full Stack Developer, DevOps Engineers, Data Scientists, Product Engineers, Systems Research Engineers
- Engineer R&D (Hardware & Software)
- Software Engineer, Embedded Systems Engineer
- Technical Marketing, Graphic Designing
- Graduate Engineers Apprentice Scheme
- Software Developers, Business Analyst, Business Development Executive
- Dev/QE/Dev OPS
- Business Development Associate, Software Development Associate, Product Engineer
- Project Engineer
- Digital Marketing Analyst
- Decision Analytics Associate; Business Analytics Associate; Technology Analytics Associate

> Practice School

The concept of Practice School is one of the unique features of the curriculum at Manipal Institute of Technology, Manipal. It provides the students with an opportunity to spend quality time in the industry during their last semester of B. Tech. Programme. Students spend 4 - 6 months in their eighth semester in an industry to gain valuable ground exposure by being part of teams handling live and challenging projects. It enables them to work in the area of mutual interest, improve self-confidence and develop core competence.

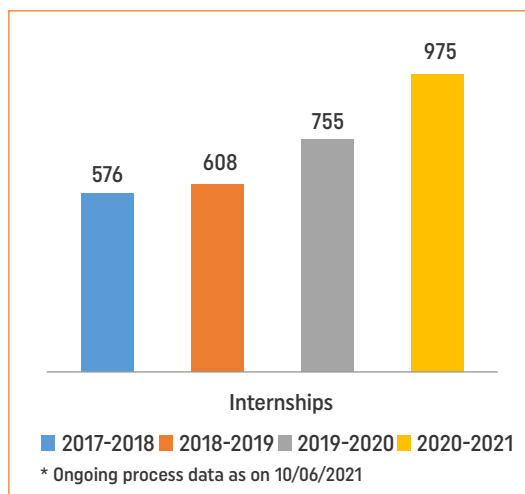

Further, the students are encouraged to do summer internships during the summer or winter breaks of the second and third year, which help them plan the Practice School project in an organisation during the final semester. In addition to this, industries offer in-semester projects to the students. During the programme, these projects help the students be abreast of the latest developments and tools used in the industrial field. All these initiatives help the students in preparing for the final year Practice School project of their choice.

The final semester of Practice School exposure provides the students with a platform to work in a competitive environment and deal with real-time problems. This experience enables students to develop their competence in problem-solving skills and demonstrate the knowledge of professional and ethical responsibilities.

They get to adapt to the industry environment better and faster. It also ensures that they are productive from day one of their professional working careers. This concept is encouraged and appreciated by most industries, as it is a win-win situation for the industry and the institute. Industries of repute have been recruiting our students for internship in increasing numbers over the years. Most of the students translate their convertible-internship opportunities into full-time employment (FTE) offer. The students are encouraged to do summer internships during the summer or winter breaks of the second and third year, which help them plan the Practice School project in an organisation during the final semester. In addition to this, industries offer in-semester projects to the students. During the programme, these projects help the students be abreast of the latest developments and tools used in the industrial field. All these initiatives help the students in preparing for the final year Practice School project of their choice.

Following is data of Practice school internships of B Tech students.

> B.Tech. Practice School Internships

> Summer Internships

The students are encouraged to do summer internships during the summer or winter breaks of the second and third year, which help them plan the Practice School project in an organisation during the final semester. In addition to this, industries offer in-semester projects to the students. During the programme, these projects help the students be abreast of the latest developments and tools used in the industrial field. All these initiatives help the students in preparing for the final year Practice School project of their choice.
