About Manipal University

In 61 years of existence, Manipal University has emerged as the leading higher education provider in India. Spread over 600 acres of green expanse, Manipal University is home to over 26,000 students pursuing undergraduate and post graduate programs in diverse subjects. The University has a strong alumni network of over 86,000 members.

- The University has created an ecosystem of teaching and research excellence making it a universally accepted destination by students. The breadth of disciplines and collaboration among constituent institutions gives unparalleled opportunity to students to cross departmental boundaries and explore different horizons.

School of Allied Health Sciences (SOAHS) envisions training and developing health care professionals who can create a difference in the quality of life of the physically or mentally compromised individuals.

Respiratory Therapy is an Allied Health field involved in the assessment and treatment of breathing disorders including chronic lung disorders, such as, asthma, chronic bronchitis, emphysema, and COPD (Chronic Obstructive Pulmonary Disease), and the respiratory components of acute multi-system conditions such as heart attacks and stroke. Respiratory care practitioners are involved in diagnosing sleep related breathing disorders such as obstructive sleep apnea, central sleep apnea and mixed sleep apnea. RTs' are also specialists in airway management, mechanical ventilation and blood gas sampling/interpretation.
