# Community-based Interventions for Suicide Prevention

## “ Change the narrative ”

Date: 10 September, 2024      Time: 8:30 am - 5:00 pm

Venue: Sharadha Hall, MCHP

Suicide is a global public health challenge. It is also one of the leading causes of death. However, it not only consumes the individual, but it poses challenges to significant family members to process and live with the guilt and scar associated with it. It's important to talk about the prevention of suicide as everyone in the community is also affected. Hence, community-based intervention will help to understand the role and responsibilities of society /stakeholders. This aids in alleviating the stigma and making mental health more accessible and timely intervention possible to save the lives of troubled individuals.

## ABOUT DEPARTMENT OF CLINICAL PSYCHOLOGY

The Department of Clinical Psychology at MCHP Manipal was established in 2000 and provides mental health treatment for adolescent and adult mental health issues. The department is recognised by the Rehabilitation Council of India (RCI). The department offers top-tier training in clinical psychology, child and adult psychiatry, and community mental health. It provides liaison clinics with various specialities, including psychiatry, paediatrics, neurology, dermatology, surgery, and oncology. Additionally, the department offers specialized training in rehabilitating chronic mental illness at its university rehabilitation centre. The department offers three programs: B.Sc in Clinical Psychology, M.Sc in Clinical Psychology, and M.Phil in Clinical Psychology.
